About the Artwork

Raise your hands to the sky and salute the Singapore Idols of Tampines West!

The artist combines the daily landmarks and the colourful Singaporeans that define Tampines East in a playful, rough-edged collage bursting with joy and colour! This artwork transforms everyday Tampines East residents into larger-than-life billboard supermodels and serves as a time capsule for these residents to look back upon years from now.

Trivia

Residents from Tampines East were invited to be photographed by the artist at 2 community events in 2013 and 2014.
