KEEPING YOU ON-TRACK

The public transport system is an essential part of the daily life for everyone in Singapore.

With the upcoming expansion of the transport network, the industry is expected to grow, increasing the demand for industry professionals.

The future of our nation's rail network

1

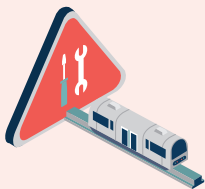

Expansion of the rail network from 184km to 360km by 2030

2

Increase in infrastructure investments

3

Upgrading of rail system

4

Increase in demand for industry professionals, providing opportunities for aspiring engineers and technical officers

INDUSTRY SCHOLARSHIP PROGRAMMES

A range of engineering programmes, supported by the Public Transport Manpower Development Fund, is available for students who want to embark on a rewarding and meaningful career in the Public Transport sector. Opportunities are endless as the industry aims to recruit many more engineers and technicians in the next 15 years to support the expansion in the transport network.

Co-funded by the Land Transport Authority (LTA) and the public transport operators, we invite aspiring candidates to apply for these attractive scholarships, the first step into an exciting and growing industry. Come join us, as we build the future of Singapore together.

- Diploma in Electrical Engineering
- Diploma in Mechanical Engineering
