

Precautionary Measures for the Point-to-Point Transport Industry

In view of the 2019 novel coronavirus situation in Singapore and with reference to advisories from the Ministry of Health, LTA would like to remind taxi and private hire car drivers to:

- a. See a doctor if unwell and don't drive;
- b. Practise good personal hygiene and avoid touching your face unnecessarily;
- c. Wind down the vehicle's windows when ferrying passengers with flu-like symptoms and after every completed trip, to improve ventilation within the vehicle;
- d. Clean and disinfect your vehicle more often;
- e. When ferrying passengers with flu-like symptoms, advise passengers to put on a mask. If passenger does not have a mask, to offer a mask to passenger if available; and
- f. Take temperature before you start driving every day, and another time in the course of the day.
