

Bringing You More Buses, Better Rides

JAN 2014 TO JUN 2014

New Bus Services and Enhancements

The map shows the new bus services launched and enhancements made to existing bus services from January 2014. These enhancements involve adding more buses to reduce crowding and improve bus frequencies of existing services during peak hours.

What is the Bus Service Enhancement Programme (BSEP)?

Starting from 2012, the Government has partnered the bus operators to significantly increase bus capacity and enhance bus service levels to benefit commuters. Under the BSEP, about 40 new services will be introduced and 800 buses will be added to the existing bus fleet.
