

Taxi Availability Framework

Year	2013 (1 st Year)	2014 (2 nd Year)	2015 ³ (3 rd Year)
1) Percentage of taxis on the roads during peak periods			
6am – 7am, 11pm – 12 midnight	65%	60% ⁴	60%
7am – 11am, 5pm – 11pm	70%	80%	85%
2) Percentage of taxis with minimum daily mileage of 250km			
Weekdays	70%	80%	85%
Weekends and public holidays	70%	80%	75% ⁵

³ From 1 January 2015, TA is determined using the taxi companies' respective *hired-out fleet*, instead of their registered fleet.

⁴ This was adjusted down to 60% from the originally planned 75% as the taxi supply has been able to meet the lower demand during the shoulder peak periods. This recalibration was also in response to feedback from taxi drivers and companies.

⁵ This was adjusted down to 75% from the originally planned 85% to take into account relatively lower demand during weekends and public holidays. This recalibration was also in response to feedback from taxi drivers and companies.
