

## Photos of the different sections of the exhibition

### Key milestones of land transport in Singapore

This section revisits key land transport milestones in Singapore from 1971 to today.

## Connecting People

This section showcases our street transformation efforts which aims to give the community more space for activities and interactions.

## Connecting Places

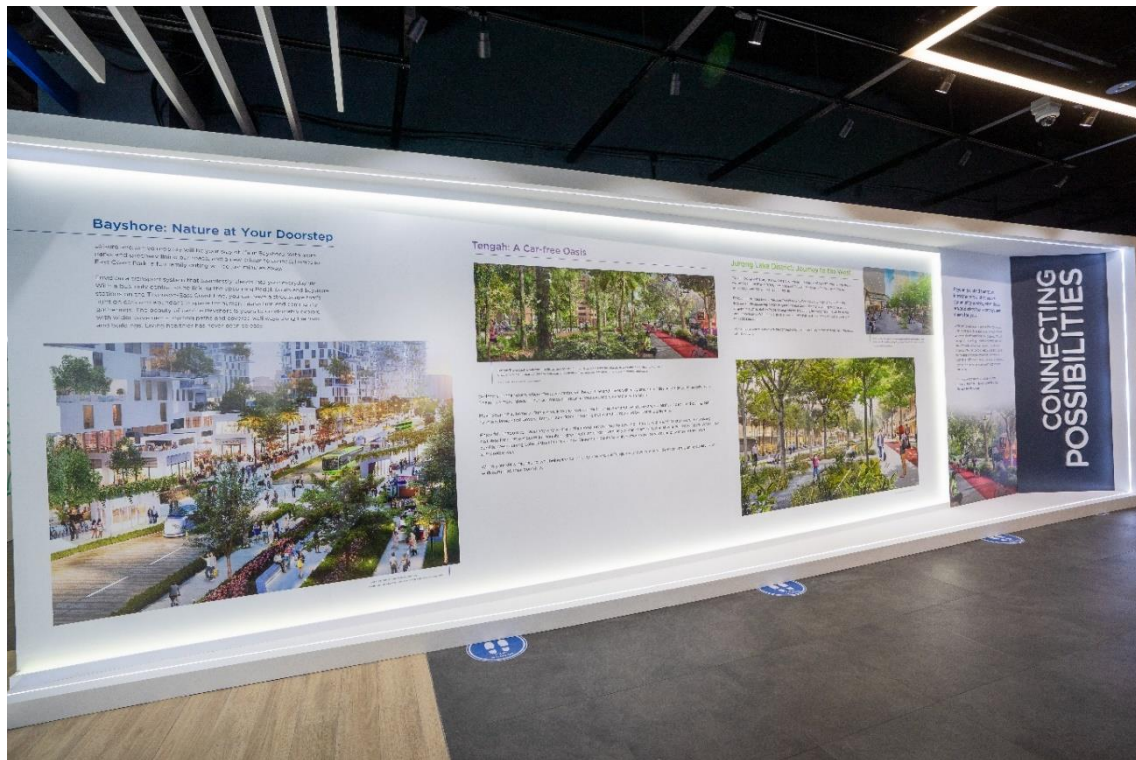

This section showcases how transport infrastructure will evolve to enhance travel convenience and enable healthier communities and promote environmental sustainability.

## Connecting Possibilities

This section explores the possibilities that a unified transport and urban planning approach can bring to towns of the future.
