

**“Make the Switch: The Quest for Greener Land Transport”
Exhibition Highlights**

Stop	Photo	Description
<p>Quest 1: Choose Your Eco-Warrior</p>		<ul style="list-style-type: none"> Visitors are invited to adopt and/or identify with an Eco-Warrior to accompany them throughout their journey.
<p>Quest 2: Pick Your Eco-Mobile</p>		<ul style="list-style-type: none"> Visitors are offered six stickers – each depicting a green mode of transport – to pick one that they identify with or would like to commit to taking more of, and colour and design it to make it their own.
<p>Quest 3: Spot the Innovation</p>		<ul style="list-style-type: none"> Visitors will learn about how LTA is working with public transport operators to harness technology and innovation to construct and operate Singapore’s transport infrastructure in a more sustainable manner.
<p>Quest 4: Running Hero</p>		<ul style="list-style-type: none"> Visitors are invited to consider how much carbon savings they can achieve by using greener modes of transport. Players can choose among three green transport modes (running, taking the train, or driving an electric car), with each posting a different carbon savings score.

Stop	Photo	Description
		<ul style="list-style-type: none"> Besides using the transport mode that matches their Eco-Warrior, players are encouraged to try out other modes of transport in the game to find out how the different transport options fare against each other in terms of carbon savings, and in the process showcasing the many green transport options available.
<p>Quest 5: The Eco-Quiz</p>		<ul style="list-style-type: none"> To sum up their learning experience, visitors are asked to measure their understanding of the topic matter through a quiz and commit to making a switch to a green commute-based activity.
