Star Award (in no particular order of merit)

1. **Team from Go-Ahead Singapore** for promoting safety awareness to bus captains
2. **Team from Go-Ahead Singapore** for enhancing safety controls to prevent unauthorised access while allowing quick intervention in an emergency
3. **Team from SBS Transit Bus** for promoting bus safety awareness to students
4. **Team from SBS Transit Bus** for promoting slip, trip and fall awareness among staff
5. **Team from SMRT Buses** for developing and implementing a system to proactively monitor bus captain alertness and enhance passenger safety
6. **Team from SMRT Buses** for developing and implementing system to automatically detect unauthorised vehicles in bus lanes in real time
7. **Team from SMRT Buses** for promoting bus safety awareness to seniors
8. **Team from SMRT Buses** for promoting bus safety awareness among students of diverse needs
9. **Team from Tower Transit Singapore** for implementing safety measures at end-on bus berths to prevent reversing accidents
10. **Mr Mohamed Hairi Bin Mohd Zais (Tower Transit Singapore)** for developing a system to ensure only trained and authorised staff are able to operate forklifts
11. **Mr Eswaran Ayyakanu (Tower Transit Singapore)** for developing a tool to reduce the effort and risk of injury when inspecting hard-to-reach areas during maintenance work
12. **Team from Tower Transit Singapore** for promoting safety awareness to their bus captains
13. **Team from SBS Transit Rail** for developing tools for the safe handling and maintenance of compressors, reducing ergonomic strain
14. **Team from SBS Transit Rail** for implementing a customised jig and mobile lift table for the safe mounting of equipment, reducing ergonomic strain
15. **Team from SBS Transit Rail** for implementing a customised jig for the safe handling of train components, reducing ergonomic strain
16. **Team from SBS Transit Rail** for redesigning counterweights to prevent accidental detachment and enhance safety during testing works

17. **Team from SBS Transit Rail** for implementing modifications to the washing bay to reduce the risk of slips, trips and falls, enhancing safety for workers
18. **Team from SBS Transit Rail** for implementing a customised jig for the safe handling of train components, reducing ergonomic strain
19. **Team from SBS Transit Rail** for implementing enhancements to the safe storage and transportation of equipment, reducing ergonomic strain
20. **Team from SBS Transit Rail** for promoting public awareness on escalator safety
21. **Team from SMRT Trains** for promoting public awareness on escalator safety
22. **Team from SMRT Trains** for implementing an engineering modification to streamline the filter replacement process
23. **Team from SMRT Trains** for developing a digital platform to streamline work planning with in-built safeguards, enhancing safety and operational efficiency
24. **Team from Go-Ahead Singapore** for promoting security awareness among their staff
25. **Team from Go-Ahead Singapore** for conducting exercises to strengthen inter-team collaboration and organisational security awareness
26. **Team from SBS Transit Bus** for exploring the use of AI and robotics in physical security for autonomous perimeter patrols at Seletar Bus Depot
27. **Team from SBS Transit Bus** for collaborating with external stakeholders to promote security awareness among the public
28. **Team from SMRT Buses** for collaborating with external stakeholders to promote security awareness among the public
29. **Team from SMRT Buses** for enhancing access controls for valuable logistics tracking
30. **Team from SBS Transit Rail** for developing a video analytics solution to enhance perimeter security
31. **Team from SBS Transit Rail** for enhancing CCTV reliability to improve surveillance coverage
32. **Team from SBS Transit Rail** for enhancing depot perimeter security
33. **Team from SBS Transit Rail** for deploying a platform that enhanced cybersecurity through Zero Trust access and advanced threat protection
34. **Team from SMRT Trains** for enhancing access control to restricted zones

35. **Team from SMRT Trains** for enhancing access control to restricted zones
36. **Team from SMRT Trains** for exploring the use of AI and video analytics to enhance security operations
37. **Team from SMRT Trains** for implementing a remotely operated gate system with video analytics to enhance security and operational efficiency
