

Public Transport Awards

1. **Scholarships**

Scholarships for a range of Pre-Employment Training engineering programmes are available for students who want to embark on a rewarding and meaningful career in the public transport industry. Coverage includes tuition fees and for selected programmes, a monthly allowance.

2. **Book prizes**

Book prizes are monetary awards presented to students on selected engineering programmes for outstanding academic performance.

3. **Sponsorships**

To ensure opportunities for staff development, growth and progression within the industry, sponsorships are available for industry incumbents for Continuing Education and Training programmes. The first batch of recipients for the Public Transport Sponsorship are currently enrolled in the MSc Railway Engineering and Integration programme conducted by the University of Birmingham.

Scholarships, book prizes and sponsorships are open to Singapore Citizens, supported by the Public Transport Manpower Development Fund, and jointly offered by LTA and the Public Transport Operators.

4. **SkillsFuture Study Awards**

The SkillsFuture Study Awards encourage workers to develop and deepen specialist skills needed by future economic growth sectors or in areas of demand. Candidates who are committed to developing and deepening their skills in the land transport sector will receive a monetary award of \$5,000, which can be used to defray out-of-pocket expenses associated with the programme being studied.

The SkillsFuture Study Awards are open to Singapore Citizens, and jointly offered by LTA and SkillsFuture Singapore (SSG).
